

1. K-Love radio serves this area of Colorado as the only Christian radio station available to me and my family and friends.
2. If K-Love radio were displaced by an LPFM broadcaster it would be disasterous as we could be forced to listen to a radio station that is not family friendly.
3. K-Love is a station that cares about the moral health of America. It fills a void created by other stations which subscribe to many "worldly" beliefs. It is commercial free and listener supported. If it ever fails to be the type of station we no longer wish to listen to, it would eventually fail as no one would support it financially (unlike regular radio stations who fill time slots from just about any advertiser willing to pay for airtime).

Thank you for considering my comments and I encourage you to not allow LPFM stations to take priority over current FM translator services like K-Love.
